

InstructionEQUIPMENT, BOOKS AND MATERIALS

The Governing Board recognizes that students' educational opportunities are enhanced when they have sufficient access to high-quality textbooks, equipment and other instructional materials for each of the subjects they are studying. To adequately support the Board-approved curriculum, instructional materials must also be up to date.

The Superintendent or designee shall develop procedures for determining the sufficiency of District instructional materials in providing accurate, current information and ensuring that students have access to standards-based materials. When new materials have been chosen in accordance with the District's selection and evaluation policy, the Board shall make final decisions regarding their purchase.
