

## Instruction

### SUMMER SCHOOL

The Governing Board recognizes that summer school provides valuable opportunities for students to improve their skills and make academic progress. When the need is demonstrated and funds are available, the Superintendent or designee, with Board approval, shall establish summer school classes for purposes of remediation, enrichment or acceleration.

The district's summer school program may be used to provide supplemental instruction for students failing to meet academic requirements and/or students who desire enrichment in core academic subjects in accordance with law, Board policy and administrative regulation.

### Enrollment Priorities

Priority to enroll in summer programs shall be given to district students who are eligible for supplemental instruction on the basis of retention, recommendation for retention, or who are making insufficient progress toward meeting grade level standards.

The remaining openings shall be offered to district students on a first-come first-serve basis.

### Attendance

Because summer courses cover extensive instructional content in a relatively short time period, consistent class attendance is crucial.

Students who have more than three excused absences or one unexcused absence may not receive credit for their summer session class(es) unless they make-up missed work in accordance with law, Board policy and administrative regulation.

### Rotation of School Sites

Sites for summer school programs may be rotated in an effort to make summer school programs more accessible to all students, regardless of residence or regular attendance area, and to equalize long-term facility and maintenance needs.
